Testimonial

San Giacomo e Franchi Farm (Villachiara - BS - Italy)

Farm Characteristics

Type of animal	Dairy cows
No. of animals	890
Housing type	✓ Cubicles/stalls with mats and sawdust ✓ Loose yards/bedded packs with straw/sawdust
SOP products used	SOP LAGOON

Laura Franchi told us:

*"With **SOP LAGOON**, the liquid manure became **fluid** and, since then, we haven't had to use the agitator or pump: it is so fluid that it flows into the loading pits by itself, to then be pumped into the storage pits which also remain practically **without crust** and in **continual fermentation**."*
